TODAY'S BEST INVESTMENT FOR SMALL SAVERS

NATIONAL SAVINGS CERTIFICATES

Available in three different series, maturing after 5, 7 and 12 years. The yield is 3%, 3.57% and 4.16% simple interest, respectively, at maturity. Thus, in the 12 year-certificates money increases by 50% on maturity. Interest is free of income-tax and super-tax and is not taken into account in arriving at the total taxable income.

The certificates are obtainable from Post Offices doing Savings Bank business in denominations of Rs. 5, 10, 50, 100, 500, 1,000 and 5,000. An individual can invest upto Rs. 25,000 and two joint holders upto Rs. 50,000/-

Deposits accepted in multiples of Rs. 100 upto a maximum of Rs. 25,000 for a single depositor and Rs. 50,000 for two persons jointly. Interest at 3½% per annum, free of income-tax and super-tax and which is not taken into account in assessing the total taxable income, is paid or remitted to the depositor's address every year. Deposits accepted at offices of the Reserve Bank of India at Bombay, Calcutta, Delhi and Madras and Branches of the Imperial Bank of India at other places transacting treasury business. Deposits are also accepted at all Treasuries in Part 'A' States at places where the Imperial Bank does not transact treasury business and at all Sub-Treasuries in Part 'A' States; also at Treasuries at Bhuj (Kutch), Imphal (Manipur) and Coorg-Mercara (Coorg).

3½%

TEN-YEAR TREASURY SAVINGS DEPOSITS

For further information and/or rules governing these investments please write to the Provincial National Savings Officer of your State or the National Savings Commissioner, Gorton Castle, Simla-3.

REMARKS

The figures of births and deaths shown in this statement for week ending the 20th June 1953, relate to 187 towns with an estimated population of 24,166 thousands. The total number of towns is 296 and their population is 36,122 thousands. Thus 63% of the total number of towns representing 67% of the total population is covered in this statement. The numbers of births and deaths recorded in these towns were 13,166 and 7,325 representing birth and death rates of 28.3 and 15.8 per thousand of population respectively.

(A) States (Parts A & C) :—The data here relate to 176 towns with an estimated population of 22,386 thousands. Information about Assam, Bihar and West Bengal could not be included. The total number of towns is 250 and their population is 30,772 thousands. Thus 70% of the total number of towns representing 73% of the total population is covered. The number of births and deaths recorded in these towns were 12,260 and 6,945 representing

birth and death rates of 28.5 and 16.1 per thousand of population respectively. The table at the end gives the position by States.

No town recorded a high death rate of 50 or over per thousand of population.

(B) States (Part B) :—The data here relate to 11 towns with an estimated population of 1,780 thousands. The total number of towns is 46 and their population is 5,350 thousands. Thus 24% of total number of towns representing 33% of total population is covered. The numbers of births and deaths recorded in these towns were 906 and 380 representing birth and death rates of 26.5 and 11.1 per thousand of population respectively.

No town recorded a high death rate of 50 or over per thousand of population.
